3. Specific Limitations to Warranty

Parts Only

This warranty is limited to repair or replacement of defective parts only and does not include labor. RAE Corp., at its sole discretion, may preauthorize the inclusion of labor expense. No claim for labor charges will be allowed without a written preauthorization from RAE Corp.'s service department. Prior written approval from RAE Corp. is required, in the event RAE Corp. has authorized the customer to purchase replacement parts for any warranted parts; and, such replacement parts must be obtained directly from a manufacturer's representative or RAE Corp. Claims for replacement parts obtained locally will be disallowed unless accompanied by a RAE Corp. purchase order for such replacement parts.

Orders for warranty replacement parts will be shipped ground transportation prepaid using the most appropriate transportation method.

Any premium transportation service will be at the cost of the requestor.

Export Equipment

Equipment exported outside the United States will be covered under the same parts only warranty as non exported equipment; provided that, all warranty transactions must take place within the territorial United States. Parts covered under warranty must be paid for in advance of any parts shipment. The customer will be reimbursed upon return of the warranty part and after the part has been inspected and determined defective. All exporting paperwork and shipping costs, including crating, will be the responsibility of the party ordering the part.

Initial Inspection

RAE Corp. will not be responsible for shipping damage, or for parts lost in transit, or for any claims of concealed damage. It is the responsibility of the receiving party to thoroughly inspect the equipment upon delivery for damage, or dry nitrogen pressure loss in transit, and to verify that any loose parts have been included in the shipment. The bill of lading will indicate if parts are shipped loose in the unit. If shipping damage has occurred, or loose parts are missing, the receiving party must resolve the issue through the claim process with the company responsible for transporting the equipment.
